

Terry Cole

Product Supply Executive

Currently Head of Global Engineering for Beam Suntory, Terry served as Vice President Global Beauty Engineering for Procter & Gamble before retiring in 2019.

In his 33-year career at P&G, he held positions in Manufacturing, Innovation Management, and Engineering across the Baby Care and Beauty businesses. In his last 15 years, Terry led large engineering groups in the United States, across Asia and around the world. He has extensive experience in developing organizations to deliver outstanding results and in building capability for the future.

Terry serves on the Management Team of Global Leadership Partners where he leads US Operations and Speaker Development programs. He is also an International Team Leader with 5 years of experience leading seminars and mentoring students and business people.

Terry earned his bachelor's in Chemical Engineering from Rensselaer Polytechnic Institute in Troy, New York.

His interests include personal fitness, triathlon, travel, and singing in choir. He and his wife have lived in China and Singapore and now reside in Cincinnati, Ohio. He is a certified Corporate Athlete Trainer.
