

Lidiya Priyadarsini K

Assistant Professor, Researcher

Lidiya is an Assistant Professor in the Department of Mechanical Engineering at Netaji Subhash Engineering College (NSEC), Kolkata, India, with more than a decade of experience in mechanical engineering education. Since 2014, she has been actively involved in teaching, project mentoring, and departmental administration.

She is currently pursuing a PhD in Mechanical Engineering at Jadavpur University, Kolkata. She holds a postgraduate degree in Production Engineering from the same university and a B. Tech in Mechanical Engineering from IIT-BHU, Varanasi, Uttar Pradesh, India. Lidiya is a committed member of the Institute of Engineers (India) and the Robotics Society. Her academic and research interests include materials characterization, mechatronics, and manufacturing systems.

She is married and has a son. One of her favorite pastimes in Kolkata is engaging in long, thoughtful conversations—locally known as *adda*—with groups of friends and acquaintances on topics ranging from education and life to creation and spirituality.
