

Saurav Gupta

Platform Engineer

Saurav is a Platform Engineer at Redhunt Labs. With a focus on cybersecurity, he has more than 7 years of hands-on experience in software development across fast-paced startup environments.

He specializes in coding, cloud infrastructure, databases, and deployment pipelines. In addition to his core expertise, Saurav has worked as a software consultant in the finance sector and continues to share his knowledge by teaching software skills on demand.

He holds a bachelor's degree in Electronics Engineering from West Bengal University of Technology.

Outside of work, Saurav enjoys singing and playing guitar, and is passionate about fitness and encouraging others to lead a healthy lifestyle. He resides in Bangalore, India.
