

Widalys De Soto-Burt

R&D Senior Director

Widalys is an executive within Procter & Gamble's global Health Care Research & Development organization.

Throughout her career, she has led large organizations and helped design and develop consumer products that make a meaningful difference in people's lives. She holds numerous patents for her inventions and is especially passionate about helping team members build their skills, grow with confidence, and reach their full potential. She also brings extensive experience partnering with suppliers to turn promising ideas into new products.

In addition to her technical and leadership accomplishments, Widalys is an award-winning author and has published fiction and nonfiction books.

She earned a Master of Science in Mechanical Engineering from the University of Wisconsin–Madison and is a licensed Professional Engineer.

Outside of work, Widalys enjoys spending time with her husband and their three children. She loves reading, writing, painting, traveling, and staying active through sports with her family.
